

TECHNOSCAPE

The architecture of engineers

closing event: Thinkers & makers of a better space

3pm | introduction

Pippo Ciorra Senior Curator MAXXI Architecture

3:15pm - 3:50pm | **Beauty and risk**

The main focus of the conversation is the increasing risk of climate change and the higher frequency of extreme environmental catastrophes.

Caterina Padoa Schioppa architect

3:50pm - 4:40pm | **talk with**

Barry Bergdoll Art Historian, Columbia University NY

Rory McGowan structural engineer and Director at Arup

introduction

Jennifer Greitschus Head of Exhibitions, Arup

4:40pm - 5:30pm | **Newness: materials and techniques**

To comply with the contribution the communities expect from us, architecture and engineering need to expand their knowledge of new materials and new techniques for using them.

universities

ETH Zürich and TU Delft

University of Stuttgart

moderator

Luca Di Lorenzo Latini architect

Andrea Di Nezio MAXXI Architecture

5:30 pm - 6:20pm | **talk with**

Tullia Iori engineering historian, Roma Tor Vergata University

Guy Nordenson structural engineer, Princeton University

introduction

Andrea Di Nezio MAXXI Architecture

MA

Museo nazionale
delle arti del XXI secolo

6:20pm - 7:10pm: Technology, Digital Culture, AI, Robotics

In their many different manifestations, tech and digital tools are changing the engineering culture. In this frame, we try to address how this change impacts the construction, rehabilitation, and urban and architectural management culture.
